9443 ATwater 2383

C. H. WESTON HOSPITAL ASSOCIATION
FOUNDED 1904—OLDEST IN OREGON

TIMES BUILDING
FOURTH AVENUE AT WASHINGTON STREET

PORTLAND, OREGON

Jan. 24, 1940.

Mr. C. C. Foley, Secretary
Oregon State Medical Society
Medical Dental Bldg.
Portland, Oregon.

Dear Sir:

I tried to reach you yesterday over the telephone but you were out so I phoned Mr. J. C. Coughlin, your attorney, to inform him that we had made a few slight or minor changes in the policy form submitted to you sometime ago. These changes are in the phraseology and construction of the policy and not any change in principles or ideas to in any way restrict or change the intent of the insurance provided. These minor corrections and changes have been made at the suggestion or recommendation of our own attorney and we thought it best to mention this so that there would be no question, if approved, about the form of policy which we will issue.

It becomes, as a matter of fact, a "Nation-Wide" insurance policy for payment of medical and hospital services and in every sense removes every possible objection that the Medical Society or the public could possibly have against the prepaid medical service policy.

We are agreeing to pay 100% of the fee schedule, and regardless of what the result may be for the first 12 months, at the end of that time, based upon experience, adjustment will be made either with regard to some possible changes in the fee schedule or decrease in premium or any other change that may at that time appear warranted. We will be glad to, however, at all times conform with and meet your wishes, rules, and regulations and trust that this may result in completely eliminating any and all pre-

vious differences that may have existed with relation to medical services or payments therefor.

We enclose herewith copy of the policy as corrected and as it is now ready to be issued through us. We should like to have something to the effect "This policy meets with the approval of the Oregon State Medical Society," in writing from you at your early convenience especially in view of the fact that we are going to order these policies printed and if there are any suggestions as to changes or corrections before this approval is received we would like to have them at this time.

Very truly yours

C. H. WESTON Co.

by (Signed) C. H. WESTON

---

9444 NATION-WIDE POLICY

This policy of insurance provides benefits and payments for Medical, Surgical, Dental, Ambulance, and Hospital Services made necessary by accident or illness as herein provided.

.....

Incorporated under the laws of the State of Oregon
Home Office — Portland, Ore.

(Hereinafter called the Company)

IN CONSIDERATION of the registration fee of $1.00 and the ..... premium of ..... Dollars, and of the statements in the application for this policy, a copy of which is endorsed hereon and made a part of this policy does hereby insure ..... hereinafter referred to as the INSURED, subject to all conditions and limitations hereinafter contained and endorsed hereon or attached hereto, from 12 o'clock noon, standard time on the day this policy is countersigned, until 12 o'clock noon, such standard time, of the first day of ..... 19....., and for such time thereafter as the premiums paid by the INSURED, as herein agreed, shall maintain this policy in force.

*THE INSURING CLAUSE.*

This policy insures against—

(1) Accidental bodily injury sustained during the life of this policy, (except injuries incurred during the course of employment while working for a third party), hereinafter referred to as "such injury" and has been maintained after referred to as "such injury" and

(2) Illness contracted during the life of this policy and after it has been maintained in force for 30 days from its date, hereinafter referred to as "such illness", as follows:

*FREE CHOICE OF DOCTOR.*

The INSURED may employ a physician and surgeon of his own choice, hereinafter referred to as the DOCTOR, for rendition of necessary service at office, residence or hospital.

*FREE CHOICE OF HOSPITAL.*

The INSURED may select a hospital of his own choice, when hospitalization is necessary, hereinafter referred to as the HOSPITAL. HOSPITAL service shall consist of ward service, use of surgery, anaesthetics, dressings and medicines therat.

*AMBULANCE SERVICE.*

The DOCTOR may order ambulance for the INSURED, to and from HOSPITAL when same is necessary, anywhere within the city limits of the location of said HOSPITAL.

*FREE CHOICE OF DENTIST.*

The INSURED may select his own dentist, hereinafter referred to as the DENTIST, for extraction of teeth, (impacted and unerupted teeth excepted).

The COMPANY agrees to pay for services rendered by the DOCTOR, and the DENTIST, and the HOSPITAL on the basis of its schedule of fees, rates, rules and regulations in effect at the time the services were rendered, provided that such DOCTOR is a legally qualified and properly licensed physician and surgeon in good standing; such DENTIST is a legally qualified and properly licensed DENTIST; such HOSPITAL is rated a Class "A" HOSPITAL.

The COMPANY shall not be liable for nor pay for any services rendered by any DOCTOR beyond the time or period of twelve months, nor for any hospital services beyond the time or period of six months, from date
9445 of "such injury" or from date of beginning of "such illness".

The INSURED shall have the right to engage a private room and private nurse in case of hospitalization and shall pay therefor, but in that event the COMPANY shall only pay the INSURED what ward treatment would have cost the COMPANY.

The above insurance shall be applicable any place in the United States of America and Canada.

*EXEMPTIONS AND LIMITATIONS.*

It is expressly understood that the following cases, and the results therefrom, are exempt from this policy and are not covered hereunder, to-wit: insanity; conditions not common to both sexes; venereal diseases; the use of narcotics or drugs; pyorrhea; Vincent's Angina; attempt at suicide; allergy; congenital conditions; injuries or illness having occurred or originated previous to effective date of insurance hereunder.

The provisions of this policy for HOSPITAL and AMBULANCE services shall not apply to diseases subject by law to quarantine and in case of tuberculosis shall be limited to diagnosis, including laboratory findings.

*REPORTS.*

The INSURED must furnish the COMPANY with the attending DOCTOR'S report and report from the HOSPITAL covering "such injury" or "such illness" for which services have been furnished, on blanks provided by the COMPANY for the purpose, and no claim hereunder or payment for services rendered by any such DOCTOR or HOSPITAL shall be valid unless immediate written notice, or within three days, is given the COMPANY with full particulars of any "such injury" or "such illness", for which services have been or are received, nor unless thereafter required reports are furnished at least every 30 days during period such services are rendered, nor unless final report is received within three months from the termination of or after last treatment is rendered for which the COMPANY shall be liable. Failure to give

notice immediately or to file such further reports within the time above provided shall not invalidate any claim if it shall be shown not to have been reasonably possible. No legal proceedings for recovery hereunder shall be brought within three months after receipt of proof at the Home Office of the COMPANY or brought at all unless commenced within one year from the expiration of the time in which proof of loss or claim is required by the policy.

The COMPANY shall have the right and opportunity to examine the person of the INSURED when and so often as it may reasonable require during period of such treatments.

If any time limitation of this policy with respect to giving notice of claim or furnishing proof of loss is less than that permitted by the law of the State in which this policy is delivered, such limitation is hereby extended to agree with the minimum period permitted by such law.

*SUBROGATION.*

In the event that the INSURED shall be injured away from the place of his work by a third party, the COMPANY shall be subrogated to the rights of the INSURED against said third party to the extent of the disbursements expended by it for the INSURED'S benefits hereunder, and the acceptance by the INSURED of the benefits hereunder shall constitute his agreement and assent to such subrogation, provided the COMPANY serves notice on such INSURED of its intention to be so subrogated within ten days after receipt of notice of such injury having been caused by said third party.

*GENERAL PROVISIONS.*

No INSURED shall be entitled to any rights or benefits under this policy while he is under the age of ..... years or over the age of ..... years. The acceptance 9446 of any premium for any such INSURED shall in no event be construed as a waiver of the above provision. Provided, however, that the amount of any premium paid under such conditions shall be refunded, either in cash or by the COMPANY'S check, to the INSURED upon demand.

The COMPANY may terminate this policy as of any anniversary of its date by giving written notice at least thirty days prior to the date of termination, and in that

event this policy shall terminate on the specified date at 12:01 A. M. Standard time without prejudice to the rights of the INSURED as respects anything that may occur during the period that this policy is in force.

It is optional with the COMPANY whether this policy shall be reinstated after it has lapsed or become delinquent at any time. If default be made in payment of agreed premium for this policy, the subsequent acceptance of the premium by the COMPANY shall reinstate the policy, but only to cover accidental injury thereafter sustained and such sickness as may begin more than ten days after the date of such acceptance.

This policy is made and accepted subject to the foregoing stipulations and conditions together with such other provisions, conditions or agreements as may be endorsed hereon or added hereto. No officer, agent or other representative of the COMPANY shall have power to waive any provision or condition of this policy except such as by the terms of this policy may be the subject of agreement endorsed hereon or added hereto and as to such provisions or conditions no officer, agent or representative shall have such power or be deemed or held to have waived such provisions or conditions unless such waiver, if any, or new provisions shall be written upon or attached hereto, nor shall any privilege or permission affecting the coverage under this policy exist or be claimed by the INSURED unless so written or attached.

IN WITNESS WHEREOF, the ..... has caused this policy to be signed by its duly authorized officer.

.....

by .....
President.

Countersigned at Portland, Oregon, on this ..... day of ..... 19.....

C. H. WESTON HOSPITAL ASSOCIATION
FOUNDED 1904—OLDEST IN OREGON

TIMES BUILDING
FOURTH AVENUE AT WASHINGTON STREET

PORTLAND, OREGON

Januray 29, 1940

Dr. Chas. E. Hunt, President,
Oregon State Medical Society,
Eugene, Oregon.

Dear Sir:—

I was invited to submit ideas or plans by which the general public might be provided with proper medical care under a policy which could be approved by the Medical Society. My first invitation came from Multnomah County Medical Society, by the Committee on Plans for Low-Wage Industrial Groups. After conferences I was able to learn what the doctors had in mind. Then I attended a meeting of your executive committee, at which you presided. There I expressed by viewpoints and also submitted copy of a policy and rate schedule. The policy was later slightly changed and the copy thereof sent to your secretary, Mr. C. C. Foley, with a letter under date of 1-24-'40. In the evening of that day your committee met again and I am informed by Mr. Foley that the policy has been referred to your Council for approval.

In the construction of this policy, every idea or suggestion made by the medical society or its members has been covered or met and the same thing applies to any and every objectionable feature having been removed. If the policy as now presented meets with every idea of what such a policy should be like, we rather feel that there can be no reason for not being officially approved by the medical society. You need not say that it is the C. H. Weston plan, as the policy is submitted in blank, there being no name of a company on copy of policy submitted. If that policy is not right then you suggest what should be done and we will so change it as to make it meet with your approval. If you approve of this policy what possible reason if any could you offer against an official approval.

By approving the policy you have certainly shown that you have accomplished that which you claim is the first consideration bearing upon the subject of Medical Care Insurance, FREE CHOICE OF DOCTOR. The policy accomplished that without any strings attached. As a last suggestion, endeavor to find a single feature in the policy to disapprove.

With reference to the fee schedule, it might be slightly more difficult to decide upon it, because of the many and various ideas as to values for sundry services. It is not hard to realize that this subject has obstacles but certainly these can be removed or overcome. If the doctors will only try to bear in mind that there are certain points, not principles, upon which it will be necessary to compromise. In going over past records we find that one doctor will bill less than our suggested fee schedule pays and another doctor will charge more. These two will have to meet and split the difference. We do not say that the schedule we submitted is either perfect or complete, we only suggest it as a starting point. Changes and additions will have to be made from time to time and we are suggesting that these be handled by or through the medical society. We are not dictating what the fees shall be, we are simply suggesting a starting point. We agree
9448 to pay 100 percent of said fee schedule. At the end of a given period, say twelve months, we would submit for your inspection the result of the fees paid as against the premiums paid. If found that a profit was made, to in your opinion warrant it, we will then have the fee schedule revamped by you, or the policy so changed as to include some additional advantages to the insured as in your opinion may seem proper, or make any other suggested changes. On the other hand, should the result show a loss we are not going to ask the doctors to make reductions in the fee schedule but we will then increase the premium to a point indicated necessary to enable us to pay 100 percent of the schedule.

Commenting upon other systems, in connection with fee schedules, take for instance the Multnomah, since you may be more familiar with its operation than some of the others, it was the intention to pay 100 percent of the fee schedule, but there were miscalculations such as producing the business and then cutting rates to secure volume. The cost of production apparently had been overlooked,

likewise that volume does not in itself mean profit. The result was a loss. Instead of paying 100 percent, reduction was made to 75%, 70%, 65% and 60% is now being paid. Who took the loss? Not the insurance company or the association but the doctors who rendered the services. In other words, the doctors thought they were going to improve themselves, instead of that they reduced their earnings to a lower level than ever before. Unfortunately the doctors, themselves, agreed to accept the losses by accepting pro-rata of the premiums collected. Under that prorating system it was not necessary for Dr. Dammasch to insist a premium sufficient to pay 100% be charged, volume at any price or cost apparently became the inspiration. If that system continuous it is not hard to predict the result. This is not said in the spirit of criticising Dr. Dammasch or the Multnomah Association but as an illustration or demonstration of the fallacy of such a system. Under the system I suggest we bring about just the opposite. In fairness to Dr. Dammasch, let us admit that all humans make mistakes. Let us, however, profit by such errors and correct the errors.

Today we are facing a problem. We must not think of how one group might profit at the expense of another group, but of how we can best improve the plan or plans under which all may be benefitted, how best to serve the public. A uniform policy and an established fee schedule under which a large percent can be fully protected should be agreed upon.

There are two things the public is asking for, and is entitled to, Free Choice of Doctor, and a policy that will pay for the service rendered. The applicant for insurance of this kind does not want a policy under which only a part of his doctor bill is paid. He wants 100% of the bill paid, just as the doctor wants 100% of the fee paid. The doctors certainly must have ideas which they can set down definitely as the fee they want to be paid. Even if they differ on this they should be able to strike a fair average, so that was can have a definite fee schedule to enable us to know what premium must be charged to cover the doctor's charge. The hospitals have established certain definite charges so we know what part of the premium to apply to the cost of that item. Medicines should be eliminated from all such contracts in the future, except in hospital cases. The problem the medical profession is

facing is the cost of medical services and if the doctors can not agree on what the charges shall be then what will happen, shall it be left to the State or the Federal governments to decide? The Doctors should be able to decide upon a fee schedule, that is your problem. If an
9449 insured finds that his policy does not cover the service of the doctor he will drop his policy and go to a Hospital Association that will furnish doctor services for the premium paid, and then where are we, just back where we started.

I strongly recommend that the medical society establish a fee system so we will definitely know what premium to charge. I hope you realize the importance of this. Bear in mind that hospital associations were practically forced into existence for the protection of a very large percent of the population, made up of ordinary wage earners who could not afford to pay doctor and hospital bills, and who for that reason used home remedies for most of their ailments. I think it is fair to say that hospital associations have educated the public to believe in the services of doctors instead.

It is not the intent to cover those able to pay whatever the individual doctor may charge and for that reason the suggestion is made to limit this insurance, or those to whom the fee schedule may be applied. It could be printed on or inserted in the policy, or could be covered under the application by refusing insurance to any applicant whose earnings are greater than the maximum set by the medical society. The point then is to establish what that limit shall be. One suggestion is $1800. for a single person and $3000. for a married person or one with dependents. These figures may seem large but we must remember that while the average earnings or salaries are higher now than a few years ago so are the costs of living considerably higher and it is necessary to adjust ourselves to these changed conditions. Today a messenger boy gets a higher wage than a clerk did some years ago, but then the board bill for the average man was $3.00 a week and today he pays that much for room rent. It would be unwise to put the earning qualifications lower and the time will come when they will have to be even higher, and so will probably also the fees under the schedule. There are not many families or individuals who today have $100. set aside to meet an unexpected hospital or doctor bill. The doctor may charge and send a bill he may even attach the wages,

but what a brutal way that is. Why not eliminate these conditions when it is apparently so simple.

If by the approval of a policy and a fee schedule this whole problem can be solved why should we delay it. At the end of a year there will be very little left of some of the other systems, on the other hand there is always the solution for the public, it will become the ward of the Government and certainly none of us want that.

I shall appreciate your prompt attention to the above and wish to assure you that I shall cooperate to the fullest extent with you and your ideas and suggestions from time to time.

Sincerely yours

(Signed) C. H. WESTON

Dr. R. W. Christiansen, Secretary
Central Oregon Medical Society
Redmond, Oregon

Dear Dr. Christiansen:

Your letter of May 28th and the accompanying resolution adopted by the Central Oregon Medical Society on May 18, 1940, requesting the Council of the Oregon State Medical Society to authorize the extension of the activities of the Multnomah Medical Service Bureau to the territory embraced by the Central Oregon Medical Society, was presented to the Council at its meeting of June 1st.

The Council voted to grant this request of the Central Oregon Medical Society.

As soon as it is convenient, the Central Oregon Medical Society should appoint a committee of three members to supervise the activities of the Multnomah Medical Service Bureau within its territory.

Very sincerely yours,

OREGON STATE MEDICAL SOCIETY

Dr. Harry B. Moore, Secretary
Multnomah Medical Service Bureau
Pittock Block
Portland, Oregon

Dear Dr. Moore:

We are pleased to inform you that the Council of the Multnomah County Medical Society has adopted the report of its committee, which recommended that the Council approve your Bureau as an agency to provide medical care to low-wage industrial groups in Multnomah County, subject ject to the conditions contained in the committee's report, dated April 28, 1939.

The Council has appointed a Committee on Plans of Medical Care for Low-Wage Industrial Groups composed of Dr. Roy A. Payne, Chairman; Dr. Noble Wiley Jones, and Dr. Dean B. Seabrook. One of the functions of this committee is to serve as an advisory committee to the

Council in connection with all problems relating to prepaid medical care.

Very truly yours,

9453 MULTNOMAH COUNTY MEDICAL SOCIETY
PORTLAND, OREGON
OFFICE OF THE SECRETARY

February 20, 1940

*REPORT OF THE BOARD OF CENSORS*

Certain information relating to the activities of the Multnomah Medical Service Bureau, which was approved by the Council on June 14, 1939, as an agency to provide medical care to low-wage industrial groups in Multnomah County, has come to the attention of the Board of Censors. This information deals with the following matters:

* * * * *

2. That, within the past year, the Bureau has entered into a contract to provide medical and hospital care in accidents to a group of students at Reed College. It would appear that the making of contracts with groups of this type is in conflict with the declared objective of the Bureau to devote its efforts primarily to providing medical care to low-wage industrial groups. It may also be pointed out that accident insurance through insurance companies is readily available at reasonable rates to individuals, such as college students. Moreover, the Bureau did not investigate the financial status of each student covered in order to ascertain whether the income of the family was within the annual income level of $1800 which the Bureau has declared it is enforeing.

9454 The Board of Censors has concluded that it is its duty to bring this information to the attention of the Council for such action as the Council deems advisable.

Respectfully submitted,

Charles E. Sears, Chairman
E. E. Gambee
Ernest L. Boylen

March 20, 1940

Dr. B. A. Van Loan, Secretary
Board of Trustees
Multnomah Medical Service Bureau
3726 S. E. Hawthorne Boulevard
Portland, Oregon

Dear Dr. Van Loan:

Section 4B of the report of the Committee on the Study of Plans of Medical Care for Low-Wage Industrial Groups in Multnomah County, adopted by the Council on May 2, 1939, on the basis of which the Council, on June 14, 1939, granted approval to the Multnomah Medical Service Bureau as an agency to provide medical care to low-wage industrial groups in Multnomah County, provides that "the Council of the Multnomah County Medical Society shall submit, at least two weeks before the annual meeting of the Bureau, a list of 26 Class B stock-holders of the Bureau, from which the Board of Trustees shall elect the Directors for the ensuing year, at least 8 of these Class B stock-holders to be Directors of the Bureau at the time the list is submitted".

In accordance with this provision of Section 4B, the Council, at its meeting of March 19, 1940, voted to submit the following nominations for Directors of the Multnomah Medical Service Bureau for the ensuing year:

| | |
|---|---|
| W. H. Bueermann | Leon A. Goldsmith |
| Harry B. Moore | Martin A. Howard |
| Earl M. Anderson | H. L. Blosser |
| Oliver M. Nisbet | Walter L. Kelsey |
| John H. Besson | Charles C. Newcastle |
| Sherman E. Rees | D. C. Burkes |
| George H. Bendshadler | R. Lloyd Tegart |
| H. R. Lucas | Kenneth C. Brown |
| Julius Bildstein | Thomas R. Montgomery |
| C. W. Brunkow | H. v. H. Thatcher |
| C. H. Manlove | Donald R. Laird |
| Wilmot C. Foster | Paul T. Neely |
| E. E. Gambee | Ralph M. Prag |

PORTLAND, OREGON

February 21, 1939

Dr. Stanley Lamb
c/o Mr. Clyde C. Foley
Oregon State Medical Society
Medical Dental Building
Portland, Oregon

Dear Dr. Lamb:

This is to advise you that the Directors of the Oregon Medical Service Bureau, at a regular meeting on February 20, 1939, adopted in toto, the Memorandum of December 29, 1938, with the recommendation to the Trustees that appropriate action be taken with reference thereto. This Memorandum is as follows:

I

The Oregon Medical Service Bureau, formerly the Multnomah Industrial Health Association, made application on October 6, 1938, for recognition as the approved local organization to provide medical care to low-wage industrial groups in Multnomah County.

Following this application, the Board of Trustees and the Board of Directors of the Bureau agreed to make the following changes in the by-laws and the policies of the Bureau:

1. That the name of the corporation be changed to "The Multnomah Medical Service Bureau".
2. That the voting stock of the corporation be sold only to physicians and surgeons duly licensed to practice in the State of Oregon, who are members of the Multnomah County Medical Society and the Oregon State Medical Society.

3. That the non-voting stock, so-called Class C Stock, be sold only to physicians and surgeons, legally licensed to practice in the State of Oregon, who are practicing outside of Multnomah County and who are members of their respective local medical societies and the Oregon State Medical Society, and only in such cases as are approved by the Bureau of Medical Economics of the Oregon State Medical Society.

4. That all the Trustees of the corporation tender their written resignations to the Secretary of the corporation at once, the resignations to be effective on the date of the annual meeting of the corporation to be held in April, 1939, and their successors to be elected by the stockholders at the annual meeting.

9456 5. That the eventual aim of the corporation be to provide medical and related services and allow a hospitalization plan to furnish hospitalization and related services independently of the corporation.

6. That any other changes be made that appear to be necessary to give the physicians who will become members of the corporation after the reorganization, the same status as present members and that the corporation be operated in an ethical manner.

II

Since the changes enumerated above were agreed to by the Board of Trustees and Board of Directors of the Bureau, additional conferences have been held.

At one of these conferences, representatives of the Bureau requested that the change in name to "The Multnomah Medical Service Bureau" be reconsidered. The representatives of the Bureau requested that the question of the name to be used by the Bureau be referred to the Bureau of Medical Economics and the Council of the Oregon State Medical Society.

III

At these conferences, representatives of the Bureau agreed that a number of other problems existed which needed adjustment.

To meet these problems, representatives of the Bureau agreed to the following additional proposals:

(A)

*Policies to be adopted and Installed Immediately as A Basis of Approval*

1. (a) That the by-laws of the Bureau be amended to provide that the Council of the Multnomah County Medical Society shall submit, at least two weeks before the 1939 annual meeting of the corporation, a list of 26 Class B stockholders of the corporation from which the Board of Trustees shall elect the Directors for the ensuing year, 13 of these Class B stockholders to be the present Directors of the Bureau, except that in the event the Medical Director shall be a member of the Board of Directors at the time of the submission of the list, his name shall not be included.

   (b) That the by-laws of the Bureau be amended to provide that in subsequent years the Council of the Multnomah County Medical Society shall submit, at least two weeks before the annual meeting of the corporation, a list of 26 Class B stockholders of the corporation from which the Board of Trustees shall elect the Directors for the ensuing year, at least 8 of these Class B stockholders to be Directors of the Bureau at the time the list is submitted.

2. That the Bureau do not communicate with physicians outside of Multnomah County in attempting to affiliate such physicians with the Bureau, and the Bureau transmit to the Bureau of Medical Economics of the Oregon State Medical Society all communications
9457 from individual physicians, groups of physicians, and local medical societies which relate to possible affiliation with the Bureau, and that the Bureau confine its activities to the work of the Bureau within the limits of Multnomah County, except as otherwise specifically approved by the Bureau of Medical Economics of the Oregon State Medical Society.

3. (a) That the Medical Director resign from the Board of Trustees, Board of Directors, Executive Committee of the Board of Directors and as Secretary-Treasurer of the Corporation. It is not the intention to displace the present Medical Director. It was recommended that the Board of Directors of the Bureau retain the present Medical Director and that the Board enter into a contract with him under terms and con-

ditions mutually satisfactory to the Board and to the Medical Director.

(b) That the by-laws be amended to provide that the Medical Director, Business Manager, or other administrative head of the Corporation shall not be eligible to serve as a member of the Board of Trustees or the Board of Directors of the corporation.

(c) That the by-laws be amended to permit the Board of Directors to delegate certain functions, such as the signing of checks under the approval of the Board of Directors, to the Medical Director or other administrative head of the corporation.

4. That the Bureau, after conferences with committees of the various specialties, place in effect a policy with respect to the compensation and other conditions relating to the rendering of professional services by members engaged in the various specialties which gives proper recognition to their training and the costs they incur in their respective branches of medical practice, with due consideration to the rights of members engaged in general practice and the funds available for the payment of professional services.

(B)

*Policies to be Adopted Immediately and Installed as Soon as Reasonably Feasible*

1. (a) That the Bureau and our committee immediately contact the Portland Council of Hospitals with a view to developing a plan of group hospitalization, with the objective of eliminating hospitalization from the contracts of the Bureau.

(b) That the Bureau and our committee immediately contact the Portland Retail Druggists Association with the objective of eliminating the supplying of drugs and medicines from the contracts of the Bureau.

2. That the Bureau and our committee investigate the feasibility of changing the corporate structure of the Bureau from that of a corporation for profit to a

non-profit corporation and that such a change be made, provided it is legally sound.

Yours very truly

OREGON MEDICAL SERVICE BUREAU

(Signed) F. H. DAMMASCH M. D.
Secretary

**Plaintiff's Exhibit 2023**

9458 Multnomah County Medical Society

COMMITTEE ON THE STUDY OF PLANS FOR THE MEDICAL CARE OF LOW-WAGE INDUSTRIAL GROUPS

*Memorandum Concerning the Oregon Medical Service Bureau, Formerly the Multnomah Industrial Health Association*

December 28, 1938

I

The Oregon Medical Service Bureau, formerly the Multnomah Industrial Health Association, made application on October 6, 1938, for recognition as the approved local organization to provide medical care to low-wage industrial groups in Multnomah County.

Shortly thereafter the Council authorized the Committee on the Study of Plans for the Medical Care of Low-Wage Industrial Groups to represent it in discussing with the Board of Trustees and the Board of Directors of the Bureau the conditions under which the Bureau could receive the approval of the Society. As a result of these discussions, the Board of Trustees and the Board of Directors of the Bureau agreed to make the following changes in the by-laws and the policies of the Bureau:

1. That the name of the corporation be changed to "The Multnomah Medical Service Bureau".

2. That the voting stock of the corporation be sold only to physicians and surgeons duly licensed to practice in the State of Oregon, who are members of the Multnomah County Medical Society and the Oregon State Medical Society.

3. That the non-voting stock, so-called Class C stock, be sold only to physicians and surgeons, legally licensed to practice in the State of Oregon, who are practicing outside of Multnomah County, and only in such cases as are approved by the Bureau of Medical Economics of the Oregon State Medical Society.

4. That all the Trustees of the corporation tender their written resignations to the Secretary of the corporation at once, the resignations to be effective on the date of the annual meeting of the corporation to be held in April 1939, and their successors to be elected by the stock-holders at the annual meeting.

5. That the eventual aim of the corporation be to provide medical and related services and allow a hospitalization plan to furnish hospitalization and related services independently of the corporation.

6. That any other changes be made that appear to be necessary to give the physicians who will become members of the corporation after the reorganization, the same status as present members and that the corporation be operated in an ethical manner.

II

9459 The committee reported to the Council that the Board of Trustees and the Board of Directors of the Bureau had agreed to these changes. However, various members of the Council and the general society pointed out a number of other problems which needed adjustment before the Bureau should receive the approval of the Society. Chief among these problems are:

1. The necessity of developing a method by which the Society can exercise control over the policies and activities of the Bureau after it has been recognized as the approved local organization to provide medical care to low-wage industrial groups.

2. The activities of the Bureau, and particularly of its Medical Director, in communicating with physicians outside of Multnomah County with the apparent objective of affiliating these physicians with the Bureau in violation of the principle of "local autonomy" contained in the Statement of Policy and Program for the Medical Care of Low-Wage Industrial Groups

adopted by the House of Delegates of the Oregon State Medical Society on August 25, 1938.

3. Widespread criticism among the members of the Society of the manifold functions of the Medical Director of the Bureau in that in addition to his position as Medical Director he is a member of the Board of Trustees, the Board of Directors, the Executive Committee of the Board of Directors, and Secretary-Treasurer of the corporation.

4. The unsatisfactory relationship which appears to exist between the Bureau and physicians engaged in some of the specialties.

5. The desirability of limiting the contracts of the Bureau to providing professional services only, in conformity to the declared policy of the House of Delegates of the American Medical Association and in consonance with the program of group hospitalization now being developed by the Portland Council of Hospitals; also the desirability of eliminating from the contracts of the Bureau the provisions which include the furnishing of drugs and medicines.

6. The desirability of changing the corporate structure of the Bureau from that of a corporation for profit to a non-profit corporation.

The committee is of the opinion that all these problems must be ultimately solved. However, some of them cannot be solved immediately. The committee believes that those changes which can be accomplished now should be made at once and that definite policies should now be agreed on with respect to those problems whose solution will of necessity require more time.

## III

The committee, therefore, submits the following additional proposals to the Bureau with a view to their adoption by the Board of Directors as a basis for the approval of the Bureau by the Society:

9460 (A)

*Policies to be Adopted and Installed Immediately as a Basis of Approval*

1. (a) That the by-laws of the Bureau be amended to provide that the Council of the Multnomah County

Medical Society shall submit, at least two weeks before the 1939 annual meeting of the corporation, a list of 26 members of the Bureau from which the Board of Trustees shall elect the Directors for the ensuing year, 13 of these members to be the present Directors of the Bureau, except that in the event the Medical Director shall be a member of the Board of Directors at the time of the submission of the list, his name shall not be included.

(b) That the by-laws of the Bureau be amended to provide that in subsequent years the Council of the Multnomah County Medical Society shall submit, at least two weeks before the annual meeting of the corporation, a list of 26 members of the corporation from which the Board of Trustees shall elect the Directors for the ensuing year, at least 8 of these members to be Directors of the Bureau at the time the list is submitted.

2. That the Bureau, and particularly the Medical Director, cease their activities in communicating with physicians outside of Multnomah County in attempting to affiliate such physicians with the Bureau, that the Bureau and its Medical Director and officers transmit to the Bureau of Medical Economics of the Oregon State Medical Society all communications from individual physicians, groups of physicians, and local medical societies which relate to possible affiliation with the Bureau, and that the Bureau and its Medical Director and officers confine their activities to the work of the Bureau within the limits of Multnomah County, except as otherwise specifically approved by the Bureau of Medical Economics of the Oregon State Medical Society.

3. (a) That the Medical Director resign from the Board of Trustees, Board of Directors, Executive Committee of the Board of Directors, and as Secretary-Treasurer of the corporation.

(b) That the by-laws be amended to provide that the Medical Director, Business Manager, or other administrative head of the corporation shall not be eligible to serve as a member of the Board of Trustees or the Board of Directors of the corporation.

(c) That the by-laws be amended to permit the Board of Directors to delegate certain functions, such as the signing of checks under the approval of the Board of Directors, to the Medical Director or other administrative head of the corporation.

9461 4. That the Bureau, after conferences with committees of the various specialties, place in effect a policy with respect to the compensation and other conditions relating to the rendering of professional services by members engaged in the various specialties which gives proper recognition to their training and the costs they incur in their respective branches of medical practice, with due consideration to the rights of members engaged in general practice and the funds available for the payment of professional services.

(B)

*Policies to be Adopted Immediately and Installed as Soon as Reasonably Feasible*

1. (a) That the Bureau and our committee contact the Portland Council of Hospitals immediately with a view to developing a plan of group hospitalization to be operated by a non-profit corporation under the direction of a Board consisting of representatives of the participating hospitals and the Multnomah County Medical Society, with the objective of eliminating hospitalization from the contracts of the Bureau as such contracts expire.

(b) That the Bureau and our committee contact immediately the Portland Retail Druggists Association with the objective of eliminating the supplying of drugs and medicines from the contracts of the Bureau as such contracts expire.

2. That the Bureau and our committee investigate the feasibility of changing the corporate structure of the Bureau from that of a corporation for profit to a non-profit corporation and that such a change be made, provided it is legally sound.

As soon as the changes set out under I and III (A) above have been placed in effect by the Bureau, and the Bureau adopts the recommendations contained under III (B) above as policies to be placed in effect as soon as

reasonably feasible, at a time to be selected by the Council of the Society, with due regard to the continued satisfactory business operation of the Bureau, the committee will recommend that the Council approve the Bureau as the agency to administer a plan to provide medical care to low-wage industrial groups in Multnomah County.

Respectfully submitted,

STANLEY LAMB, Chairman
B. O. WOODS
CHARLES E. SEARS

**Plaintiff's Exhibit 2024**

9462 BENTON COUNTY MEDICAL SOCIETY

CORVALLIS, OREGON

PRESIDENT SECRETARY-TREASURER

October 28, 1938

Oregon State Medical Society
Medical-Dental Building
Portland, Oregon

Gentlemen:

At the regular monthly meeting of the Benton County Medical Society held October 21, 1938, it was voted to express its sentiment to the State Society in reference to the institution of some plan for the pre-payment of medical service for the low wage groups, as was made possible by the House of Delegates of the Oregon State Medical Society August 25, 1938.

Our Society senses the possible need of some action on the part of organized medicine to refute the activities of lay hospital associations and the trend toward socialization of medicine. We feel that we in our own community can freeze out the lay hospital associations by refusing to work for them. We are not in accord with the plan as outlined by our House of Delegates and do not at the present time care to institute any plan as outlined by it at the last annual meeting. Under a pre-payment plan such a small percentage of these low wage groups will actually have coverage and it will evolve upon us to care for them anyway, that we shall be very happy in our community to not be entangled in the nets of any hospital

association or any plan for the pre-payment of medical service.

Yours fraternally,

Benton County Medical Society

(Signed) W. H. FORTNER, M. D.
W. H. Fortner, M. D.
Secretary

9463 LANE COUNTY MEDICAL SOCIETY
EUGENE, OREGON

November 8, 1938

Council Oregon State Medical Society
Portland, Oregon

Gentlemen:

Enclosed find a copy of a complaint submitted to the Council of the Lane County Medical Society by Doctor M. V. Walker of Springfield, Oregon. We are also enclosing the answer thereto, submitted by the Council of the Lane County Medical Society to Doctor Walker. This material is sent to you so that if it is called to your attention you will be aware of the action taken by the local Society.

Very sincerely yours,

9464 LANE COUNTY MEDICAL SOCIETY
EUGENE, OREGON

November 8, 1938

Dr. M. V. Walker
Springfield, Oregon

Dear Doctor Walker:

Your letter of recent date to the Council of the Lane County Medical Society was discussed by the Council in executive session at noon, October 28, at the Ten Eyck Tea

Room, and the Council of the Lane County Medical Society submits the following reply:

The matter of a contract of the Springfield Student Body for medical care for athletes of the Springfield High School is something which cannot be altered for this year. It is the opinion of the Council that the contract was entered into without sufficient time for the Medical Society to properly study its contents. If any undesirable conditions exist an attempt will be made to rectify them before the contract is renewed. In fact, suggestions are now being submitted to the management of the Springfield High School for a better arrangement for next year. Furthermore, a letter was sent to Doctor Jones, which was forwarded to Mr. Marschat, October 1, stating that members of the Lane County Medical Society could not carry out the provisions of the contract they contemplated.

The Council expresses its appreciation to you for resigning from a medical coverage contract with a fraternal order which was selling medical services to its members under a contract not complying with the ethics of the American Medical Association. The competitor whom you mentioned as holding a contract with the student body of the Springfield school system has also, since then, given up his contract. Moreover, the Council until this year had not been advised of this school contract, and therefore cannot be held responsible for past conditions.

In answer to your statements of the situation in Springfield which concerns the Eugene Hospital and its contracts, a copy of a letter to the Council of the Lane County Medical Society from the Eugene Hospital is enclosed. We have also taken pains to personally investigate the question of contracts with teachers in the Springfield schools and find that no teacher group has been under contract for the last two years; that the high school teachers have had no contract for the last four years, if at all, and as far as can be ascertained, only one school, the Brattain School, has ever been under contract.

The Council of the Lane County Medical Society realizes that in any community in which there is competition for rendering medical services there is a possibility of disagreements or irregular practices to which the attention of the other members of the profession should be called. The Council of the Lane County Medical Society appreciates your calling these matters to it's attention and will always

be glad to aid you in solving any controversy over which it has jurisdiction.

Very sincerely yours,

E. D. Furrer, M. D., Sec'y
Lane County Medical Society

Copy to Council Oregon State
Medical Society

---

9465 COPY

To the Council Lane County Medical Society:

After hearing the statement of charges brought by Dr. Walker, I feel that I should make some points clear as they touch on the policies and operations of the Eugene Hospital.

The status of the Booth-Kelly contract is exactly as it was when Dr. Walker came to Springfield years ago. He came with the knowledge that the Booth-Kelly work was contracted when he came there, and he has had no unfilled promise concerning it.

The statement of the number of men working for Booth-Kelly at Springfield is a very poor guess and was never founded on facts. Our report for the month of September shows there were 166 men working in Springfield, some of whom live in Eugene.

The two physicians doing emergency work for this operation, are chosen by a health committee of the Working Men's organization, and this is a very satisfactory arrangement.

The matter of Teachers' contract is a very ancient history. We had for one year, a part of the teachers under contract. We found it unprofitable and we have not renewed their contract for two years.

Dr. P. J. Bartle

9466 COPY

The Council,
Lane County Medical Society:

I was invited last week to present before the Council of the State Medical Society certain facts in regard to the medical situation in Springfield. At the request of our president, Dr. Beardsley, I will today review the situation although I am sure you are well aware of most if not all the facts that I shall present. I have consented to come here only in the hope that you may be awakened to action.

The facts which I shall present would seem to indicate that the members of this and former councils have been guilty, first, of negligence if not actual obstruction of the purposes of the Lane County Medical Society, and second, they have been guilty of unfairness in their dealings with members.

Article II of the Constitution says that the purpose of our society "shall be to federate and bring into one compact organization the medical profession of Lane County," also the purposes shall be of "guarding and fostering of their material interests."

The writer will show that the officers of this society by their negligence in guarding and fostering the material interests of its members are by their indifference actually obstructing the federation and bringing into one compact organization the medical profession of Lane County.

The writer will also show that one member was asked and did give up a remunerative contract while his main competitor was not asked to or at least did not give up a contract which he held at the same time.

Section 15, Chapter I of the Bylaws of the Lane County Medical Society states, "The principles set forth in the Code of Ethics of the American Medical Association shall govern the conduct of members in their relations to each other and to the public." The writer will show that even the officers of our society have repeatedly violated the Principles of Medical Ethics.

There are three practicing physicians in Springfield: one works for the Eugene Hospital Association, another for the Pacific Hospital Association and the third is in the favored position of working for both the Eugene and the Pacific Hospital Associations. In-as-much as Springfield is only a small town of 2400 population, the contract for the employees of the only mill in town assumes real impor-

tance. At the present time, the Eugene Hospital Association has a contract with about 450 men and, I am told, some families working for the Booth-Kelly Lumber Co. representing, we will say, over 2000 people in the Springfield district. Of this 2000, approximately 750 live in the city of Springfield. Especially is this true because whether the contract goes to the Pacific or to the Eugene Hospital
9467 Association, one out of the three physicians is ostracized from the work. In plain words, for several years the patients of the writer have been required to seek his two competitors or go out of town for medical service if they wished to enjoy the benefits of their contract.

The Springfield relief worker told the writer at one time that she estimated there were 75% of the 2400 population on relief rolls. Presuming this figure was 10% high, it means that a large percentage of 1550 people in Springfield were taken care of by the county physician who also took them to the Eugene Hospital when necessary. I bring this point up just to show the many ways patients are being induced away from local physicians. Now, out of the remaining 850 low wage earners, let us take in round figures 750 people dependent on the mill and who are urged indirectly to go out of town for medical service or to the writer's two competitors. This leaves approximately 100 people in Springfield for which three physicians compete. Now, take from this number school teachers who have been signed by contract with the Eugene Hospital Association and the student body of the high-school which have also been under contract, and you will begin to realize why the writer claims that these contracts interfere with reasonable competition.

Article VI, Section 2 of the Principles of Medical Ethics says, "it is unprofessional for a physician to dispose of his services under conditions which interfere with reasonable competition among physicians of a community." A member of the Board of Censors and therefore an officer of this Society works for the Eugene Hospital Association and under these contracts constantly violates the Principles of Medical Ethics. You, as fellow officers of the Lane County Medical Society have been aware of this flagrant breach of medical ethics and you have turned your head the other way. A plea of ignorance has already been put forward by members of this Council but the writer maintains that such a plea is not a justifiable excuse for your negligence. Especially is this true when he, personally drew officer's at-

tention to these conditions and apparently no investigation was made and the writer was told the matter was not even brought up for discussion.

The conduct of this Council cannot but obstruct the bringing together of all doctors in one compact organization, one of the main purposes of this society.

For several years past, the Eugene Hospital Association has had a contract with the Springfield school teachers, many of which were patients of the writer. With free choice of physician denied them under the contract, they have naturally sought the offices of competitors. To secure this contract the business manager of the Eugene Hospital Association visited the Springfield schools in direct violation, it would seem, of Chapter III, Section 4 of the Principles of Medical Ethics in regard to solicitation of patients. This contract was for dental as well as medical service and the Eugene Hospital Association having only one dentist on their staff, there was naturally no choice of dentists whatever. I am also told on good authority that the solicitation of this contract constituted direct violation of the dental laws of the state of Oregon and the Eugene Hospital Association could be prosecuted on such grounds.

9468 To illustrate the visciousness of these contracts, let the writer tell the experience of a very well to do property owner in Springfield. This woman taught school on a part-time basis after the death of her husband. Under the contract with the Eugene Hospital Association, she had all her remaining teeth pulled by their dentist. In place of having her plates made by the dentist who had done her work for years, she confided to him that she had been persuaded that it was only just and right to let him, the Eugene Hospital dentist, make her plates seeing that he had really pulled her teeth for nothing under the contract. Her own dentist, as well as the writer was a taxpayer in Springfield and as such ehlped to pay this woman's salary which in turn pays the Sugene Hospital Association for a contract that makes it almost impossible to do her work.

I believe the writer is justified in claiming that the officers of his medical society are negligent in not guarding and fostering his material interests, one of the avowed purposes of thi organization.

Last spring the writer was asked by officers of the Lane County Medical Society to resign from three out of the five hospital associations for which he worked. This would leave all the contracts in his community in the hands of only two hospital associations, for both of which his main

competitor worked. The writer, however, could only do contract work for one of these hospital associations. The manifest unfairness of this request was pointed out to the officers of this society but they in turn assured the writer that if he would send in his resignation, they would see that this interference with reasonable competition was cleared up.

A year and a half ago the writer resigned as Eagle physician at the unofficial request of the Lane County Medical Society. The reason which he gave for this action in the resignation dated April 26, 1937, was, "medical service to the Eagle members does not conform to the thics of the American Medical Association." The writer was told by the officers of the medical society that this remunerative contract which he held was unethical in that it interfered with reasonable competition among physicians and that to help along with the medical society's effort to promote free choice of physician, he should give up this contract. The writer did, but his competitor didn't give up a contract he held with the student body in the Springfield school system. "What is sauce for the goose is sauce for the gander."

Not only have you failed miserably in upholding the purposes of this society but facts would seem to indicate you are actually working against the society.

Let me tell you of what has actually happened lately in Springfield.

With the consent of your President, one of your officers who is a member of the Springfield School Board is said to have urged the superintendent of schools to enter into a contract with a so-called unethical Portland hospital association. The physician in question resigned from this hospital association sometime ago and now claims he does not work for them. This member of the Board of Censors actually volunteered to carry out provisions of the
9469 contract without remuneration and his offer was accepted. The writer knows at least one of the other two physicians did not volunteer free service but probably it was because he was never asked. The writer would urge the reading by every officer, of Chapter III, Section I, in regard to gratuitous service and Article I, Section 4, of Chapter III, in regard to solicitation of patients.

After the Council of the Lane County Medical Society ruled this contract unethical, the writer suggested that the President notify the Superintendent of Schools that members of the Lane County Medical Society could not carry out provision of the contract. The President even failed

to do this and so the contract was signed by the Superintendent and sent in, thereby putting into effect a contract under whose terms only one physician, I believe in Lane County, may give medical service. In other words, our own officers have backed up a fellow officer who urges the signing of a contract with an "unethical" hospital association, a contract which seriously interferes with reasonable competition in Springfield because it throws all the work to one physician and he gets the work because he doesn't belong to our medical society. Facts make it look as if our officers are actually working against our Society but we realize that "to err is human."

The writer is sorry that such conditions exist and is more sorry that he has been called upon to expose this sad state of affairs. He could go on ad nauseum enumerating violations of medical ethics but the few discussed, will probably serve to illustrate the conditions existing in Springfield.

The writer has made the claim that the officers of the Lane County Medical Society have been guilty of unfairness in their dealings with members and has offered in proof a request made by the officers to the writer that he resign from three hospital associations which would give his competitor a marked advantage in competition for medical practice. He also has offered in proof of such unfair dealings, a request made upon himself that he give up a very lucrative contract when his main competitor either was not asked to or did not give up a contract which he held at the same time. He has made the claim that the officers of his own medical society have been negligent in their duties if not actually obstructing the purposes of the society which are to protect and further the material interests of its members and to federate them into one compact organization. He has brought forward facts concerning contracts that have and now exist in Springfield which violate the Principles of Medical Ethics, in that reasonable competition is interfered with and has shown that the officers have done nothing to remedy the situation.

The writer is sincere when he says he has presented these facts for the best interests of the society as a whole. He re-affirms his loyalty to the society and hereby offers his whole-hearted cooperation to the officers in clearing up the situation in Springfield.

Dr. M. V. Walker.

Dr. James W. Wiley
Selling Building
Portland, Oregon

Dear Dr. Wiley:

The Multnomah County Medical Society has received information which appears to indicate that the contract practice engaged in by you in connection with the Prudential Hospital Association is conducted in a manner which is in violation of the Principles of Medical Ethics of the American Medical Association.

It is felt that an investigation of this matter should be made, for the good of all concerned.

At a meeting of the Board of Censors to be held in the auditorium of the Medical-Dental Building on the 11th day of March 1936, at 8:30 o'clock P.M., the Board will make an investigation of this matter. This letter is to give you notice of the meeting and an opportunity to be heard.

No formal charges have been preferred. The investigation at this meeting will be informal and will be conducted in accordance with Section 7 of Chapter I of the By Laws of the Society which reads as follows:

> Conciliation. Kindly efforts in the interest of peace, conciliation or reformation, so far as possible or expedient, shall precede the filing of formal charges affecting the character or standing of a member, and it shall be the duty of the Board of Censors to promote this end by making a preliminary examination into the merits of the case, and the accused shall be given opportunity to be heard in his own defense, in all trials and proceedings of this nature.

Very truly yours,

MULTNOMAH COUNTY MEDICAL SOCIETY

Dr. Charles E. Sears,
Medical Arts Building,
Portland, Oregon.

Dear Dr. Sears:

I am writing this note to confirm my statement that I am not in any way associated with the Prudential Hospital Association or any other form of insurance or contract practice aside from the Multnomah Industrial Health Association.

I will be willing to sever relations with this latter group at any time their affairs cease to be conducted in accordance with the principles of medical ethics as stated by the American Medical Association.

Yours very truly,

March 31, 1937

Dr. Frank E. Boyden
Wilcox Building
Portland, Oregon

Dear Dr. Boyden:

I received your letter of March 23rd, in response to my letter of March 19th.

The Board of Censors appreciated your cooperation and candor displayed at our meeting held on December 15, 1936.

At that time you stated that you would be in a position to withdraw from your association with unethical contract practice about July 1, 1937. On the basis of this statement, the Board took no further steps in considering your position.

More than three months have elapsed since the meeting of December 15th. You should have had time to formulate your plans.

The Board wants you to notify it as soon as possible as to whether you are going to drop your association with contract practice about July 1st. If you cannot state that definitely at present, we wish you to give us a definite date upon which you will have formulated your plans.

The Board is meeting Monday night, April 5th, and would appreciate a reply from you by that time.

Very truly yours,

MULTNOMAH COUNTY MEDICAL SOCIETY

Dr. Frank E. Butler
Medical Arts Building
Portland, Oregon

Dear Dr. Butler:

The Multnomah County Medical Society has received information which appears to indicate that the contract practice engaged in by you in connection with the National Hospital Association is conducted in a manner which is in violation of the Principles of Medical Ethics of the American Medical Association.

It is felt that an investigation of this matter should be made, for the good of all concerned.

At a meeting of the Board of Censors to be held in the auditorium of the Medical-Dental Building on the 15th day of November, 1937, at 8:00 P.M., the Board will make an investigation of this matter. This letter is to give you notice of the meeting and an opportunity to be heard.

No formal charges have been preferred. The investigation at this meeting will be informal and will be conducted in accordance with Section 7 of Chapter I of the By Laws of the Society which reads as follows:

> Conciliation. Kindly efforts in the interest of peace, conciliation or reformation, so far as possible or expedient, shall precede the filing of formal charges affecting the character or standing of a member, and it shall be the duty of the Board of Censors to promote

this end by making a preliminary examination into the merits of the case, and the accused shall be given opportunity to be heard in his own defense, in all trials and proceedings of this nature.

Your cooperation in the discussion of your contract practice will do a great deal to clear up any possible misconception concerning its nature and effect.

Very truly yours,

MULTNOMAH COUNTY MEDICAL SOCIETY

Portland, Oregon

Dear Dr. Butler:

The Board of Censors of the Multnomah County Medical Society has been informed that you eithe have or will very shortly discontinue the type of practice which was the subject of the conciliatory meeting which the Board held with you recently.

In the light of that understanding, the Board of Censors is taking no further action with respect to the matters included within our discussion. However, if our understanding is not correct and you are still continuing in this type of practice, or if in the future you engage in this type of practice, the Board of Censors will be required to again consider this matter.

Thank you very much for your courtesy and for manifesting your interest in this matter by attending the meetings of the Board of Censors.

Very truly yours,

MULTNOMAH COUNTY MEDICAL SOCIETY

Dr. Stanley Lamb;
Dr. Franklin P. Johnson;
Dr. Frank R. Mount;
Dr. Otis F. Akin;
Dr. C. E. Sears;
Dr. W. F. Hollenbeck;
Dr. T. Homer Coffen.

Dr. John C. Adams, Secretary;
Mr. Clyde C. Foley, Executive Secretary.
Mr. John J. Coughlin, Attorney, appearing for the Council.
Dr. John R. Steagall.

---

PROCEEDINGS.

The meeting was called to order by Dr. R. Banner Brooke, President.

A letter from Joseph K. Carson, Jr., Mayor of Portland, to Dr. Banner Brooke, President of Multnomah County Medical Society, was read by the President and, being considered by unanimous consent, Dr. Rockey moved that the President appoint two members to represent the Multnomah County Medical Society in the matter
9477 therein referred to, which motion was duly seconded by Dr. Boyden and carried. Dr. Eugene

Rockey and Dr. Guy Boyden were appointed by the President as a committee, pursuant to said motion.

President Brooke next read a letter from the Bureau of Health, under date of September 15, 1936, signed by Helen A. Cary, physician, Medical Director School Health Service, and approved by John G. Abele, M. D., City Health Officer, and, being considered by unanimous consent, after discussion, the following occurred:

Dr. Payne: I move that we approve it as applied to grade children.

President Brooke: I think that would be quite satisfactory.

Dr. Mount: I would second that motion.

President Brooke: It has been moved and seconded that the procedure of tuberculin testing as outlined in the letter of September 15th, 1936, addressed to the Council, should be approved as applied to public and parochial school children.

Dr. Rockey: Grade.

Dr. Payne: Grade.

President Brooke: Public and parochial grade school children. Are you ready for the question? (Question called for.) All in favor will say "Aye". Contrary "No". (Unanimously carried.)

You will direct a letter then conveying the approval of the Council to Dr. Cary, so she can have it as a matter of record.

*CASE OF DR. JOHN R. STEAGALL.*

President Brooke: Now we have before us the consideration of

9486 President Brooke: A dollar twenty-five cents?

Dr. Steagall: Under forty-five—under a certain age; under forty-five it is twenty-five cents less than the husband, provided the husband is already a member, and there is a graduation of that scale. If it runs up past fifty we charge two and a half a month and past fifty-six we don't take them.

A Council Member: What page is that?

President Brooke: Eight.

Dr. Steagall: But the rate there—I don't know that that matters. Where it said the man's wife could come in for twenty-five cents.

President Brooke: On page 8.

Dr. Steagall: She comes in for twenty-five cents less than his own rate.

President Brooke: Oh, twenty-five cents a month less than his own rate?

Dr. Steagall: Yes. There is another little error there: Two and a half dollars a month monthly dues and plus a monthly membership of two fifty. That is not a monthly membership; that is just a membership fee paid once and once only, and it is three dollars and a half or three dollars for one individual but four fifty for a family. If you want to know what it is that is what it is.

I see Dr. Otis Akin pull down his face. I was not up at the Good Samaritan Hospital but I called up Dr. Akin, wanted him to see a case for me about, oh, three or four months ago. Akin says, "I can't do work for hospital associations." I said, "Well, suppose we give this man five dollars and send him up there and you don't know
9487 where he comes from?" "No, that won't go; that is beating around the bush," Akin says. So I brought a letter to Akin at the Good Samaritan Hospital the other night, and here on top of it was Prudential Life Insurance. Well, Akin's face pulled down—just a matter of a disability claim that the Prudential Life Insurance Company wanted a specialist in; not contract; just simply wanted to refer him to a specialist and they would pay the bill. Akin is not smiling now; but he didn't smile then. His face got long.

President Brooke: That was an insurance company case?

Dr. Steagall: Insurance company, life insurance; life insurance, yes. They wanted to—they would like to have a combined—it was an arthritis case they wanted a specialist to see, just referred it to him; not a contract case. That is perfectly all right. Everybody is doing life insurance work.

Dr. Akin: You want me to tell them why I said that? Do you remember what the rest of the conversation was? I said whenever I looked at you or you came near me I thought of a hospital association.

Dr. Steagall: Yes. But Akin thought I was going to ask him to do something else. I asked him once to see a fracture case or something. He turned me down flat. Well, I signed that letter that came in there. I don't know that there is anything in there that is not—it isn't exactly the letter I would have written, and I don't know that there is anything in there I wouldn't sign. I knew the most of

what was in it. I was out of town at that time. I don't know that I have anything more to say.

9489 President Brooke: You can be excused if you have nothing further to say.

Dr. Steagall: Any questions?

Dr. Adams: Anybody want to ask any questions?

President Brooke: Anybody desire to ask Dr. Steagall any questions?

Dr. Johnson: I would like to ask him one question. You made the statement that it would entail considerable financial loss if you quit the Prudential company at this time?

Dr. Steagall: Yes.

Dr. Johnson: And yet you say you would be glad to see them all closed down?

Dr. Steagall: Yes.

Dr. Johnson: Well, would you suffer any loss if they would all close down at once?

Dr. Steagall: Oh, yes; yes. You see, I can explain why. The state requires a considerable size bond. Bechtold has been trying to get that bond put up to one hundred thousand dollars. It has only been—it is only required now five thousand. We expect it to be twenty-five thousand. And I own half of those bonds that were prepared, that we have got in there. If I walk out I lose my claim on half, at least a half interest in approximately that many bonds and property, and drugs and other office equipment, the office equipment there. I gave up most of my office equipment when I went over there. Most of the equipment in there is mine. I would have to buy new office furniture, unless that thing could be put out of business. If that

9490 would be put out of business I would get half of those bonds; and I would lose approximately twenty thousand dollars. I didn't intend to say those figures, but then I just can't do it. Why should I be asked to do that, when some fellow would lose nothing except just his salary? If I could get,—if you could put all of the hospital associations out of business it would suit me. That explains that. I have answered.

Dr. Johnson: Yes, but it is not in the power of the Medical Society to put any hospital association out of business.

Dr. Steagall: We are doing business under the laws, under the insurance laws in the state of Oregon as a corporation. We are bound to carry out our contract, and that bond requires to be deposited with the state, is put

down there so as to see that we do carry out that contract with the patients, and I can't see that that is any more—of course, ours isn't any more contract practice than all the other hospital associations. I can't see why the limit on choice of physicians—I can't see why it is any more there than it is with the Southern Pacific—I don't mean—any other railroad. There are only three physicians they can choose, the employees of the Southern Pacific; they have no question about the matter, no choice in the matter. They go in there, their money is taken from them and they are limited to that. Kenneth A. J. MacKenzie had the railroad contract and he was the man that was the strongest of anybody I know against the hospital associations, unless it is somebody I don't know whose views—I don't know how strong they are.

President Brooke: Dr. Steagall, a while ago you 9491 said you would be quite willing to quit hospital association practice and you wished that all hospital association practice were discontinued. Do you think it would be a good thing if all hospital association practice would be discontinued? Now why do you think it would be a good thing?

Dr. Steagall: I didn't say it would be a good thing. I say I would be glad.

President Brooke: Then why would you be glad?

Dr. Steagall: I would be glad to get out of this.

President Brooke: Why would you be glad to get out?

Dr. Steagall: Too damned much work for a man of my age. I want to quit. I want to lay down. I am not making night calls now; I just can't stand it. I will soon be fifty-nine years old, and then I will soon be sixty. I don't want to work so hard as I am working.

Dr. Adams: Do you think, Dr. Steagall, that it is really a satisfactory type of practice? Do you really believe that—

Dr. Steagall: I think—we have got members there that have been there for twenty years and they are satisfied. I think we have a completely equipped laboratory there for doing Wassermanns or blood counts or any of the ordinary laboratory work, except the microscopic sections, and we don't take out tumors there anyway; and we don't stint in X-ray work; we don't stint in hospitalization whenever it is necessary.

Dr. Adams: Don't you think the tendency is toward

that thing in any prepaid system of hospital or medical care, though?

Dr. Steagall: We are all interested in those pa-
9492 tients being satisfied and we make a special effort to keep those people satisfied and to have them satisfied because we give them satisfactory work. We don't hire anybody to work for us that will slight the work —just pass it on to get rid of it. We don't do that kind of work. Some of the others do. The National—

Dr. Adams: Of course you have to satisfy a patient to keep him under contract, you see. I mean, that is the very—

Dr. Steagall: They are privileged to drop their contract any time they want to.

Dr. Adams: I know, but you have to satisfy him to keep him under contract.

Dr. Steagall: Yes.

Dr. Adams: That is the very heart of the thing. But are you satisfied that you are giving him the very best of everything, or merely that you are satisfying him? You see, he is not always in a position to judge—

Dr. Steagall: We are well equipped for it and try to—

Dr. Adams: —the actual value of the service, is he?

Dr. Steagall: —give him the best.

Dr. Adams: For instance, the reason we have pure food laws is because the average citizen is not in a position always to judge as an individual whether it is a satisfactory preparation of food and the government steps in, in that particular case, and lays down some laws for the protection of that individual.

Dr. Steagall: Yes.

Dr. Adams: And the same thing applies here. Do you think that the fact that that individual is satisfied—that that is the answer to the practice of medicine?

9493 Dr. Steagall: I think many of those people get better service than the ordinary patient does, because the ordinary patient, if he gets a cold he will neglect that cold until it runs into possibly some complications which weaken the lungs in such a way that it is likely to become a tuberculosis even before he becomes examined, or he may neglect it because he can't afford to pay the doctor, knows the doctor is going to charge him three and a half if he comes to the house or two and a half, or so forth, if he goes to the office, and he neglects it. They come in early and we are able to do a lot, where that isn't done

outside. There are lots of things that we do that isn't done by the outside, because it doesn't cost them anything to come in, any more than it does—that is, they pay by the month. They pay by the month. We have no doctors paid by the month. We are using—we refer—we have several specialists we refer cases to. We are not referring to Dr. Akin any more bone cases but—I am not trying to score Dr. Akin on anything tonight, and Dr. Akin is a friend of mine. I hope he is. I am a friend of his.

Dr. Margason: Dr. Steagall, I understood two or three times you stated you had nothing to do with the managerial policies; that you own half of this concern but haven't anything to do with the management or policy of this concern?

Dr. Steagall: I own forty-nine per cent.

Dr. Margason: Whatever it is, you own this and have nothing to do with the control or policies?

Dr. Steagall: Yes.

9499 Mr. Foley: I think, Dr. Sears, with reference to what you are inquiring about, the facts in the matter are these: The Hospital Association, at the time it was organized, at least before it writes contracts, must deposit with the State Insurance Commissioner, in securities acceptable to him, five thousand dollars. In addition to that it must take out a bond, usually with an insurance carrier, in the sum I think of ten thousand dollars.

Dr. Steagall: Twenty.

Mr. Foley: It may have been raised to fifteen thousand dollars.

Dr. Steagall: It is twenty.

Mr. Foley: Which is additional. That is a bond to guarantee fulfillment of the contracts.

Dr. Sears: Yes.

Mr. Foley: But you do not have to deposit that sum, but the minimum sum required is merely five thousand dollars.

Dr. Steagall: Yes. There are two bonds we have to pay a bonding company for. I thought it was twenty thousand.

Mr. Foley: It was ten until the last session of the legislature, I believe, and they raised it to fifteen. That bond is purchased as any other guaranty or performance bond from an insurance carrier.

Dr. Sears: But if you were to discontinue your Hospital Association, the thing I asked you was, and I under-

stood you to answer me affirmatively, that those bonds would be returned.

Dr. Steagall: Not if I would walk out.

Dr. Sears: No. I said if the Prudential was dis-
9502 continued.

Dr. Boyden: He don't know, he says.

Dr. Steagall: I have nothing to do with the business end of it. I have read the contract but it is four pages and I just don't remember.

President Brooke: If there are no other questions we will call for a recess.

Dr. Steagall: Whether the contract is canceled or taken up, I haven't anything to do with that. As long as they are members I give my professional service, and that is all I do, professional service.

President Brooke: Well, thank you very much for coming, D.. Steagall.

Dr. Steagall: Which one of these pamphlets was mine?

Mr. Foley: You can have any one of them, Doctor.

(Dr. Steagall here left the room and a short recess was taken, after which proceedings were resumed as follows:)

President Brooke: The meeting will now come to order. We now have to consider the further action of the Council in the following form:

"WHEREAS, the Board of Censors has presented its conclusions in the form of the resolutions, copies of which have been given to each member of the Council here, and has sent a copy of these resolutions to Dr. Steagall; and

"WHEREAS, the Council has given Dr. Steagall due notice of this meeting and an ample opportunity to
9503 be heard, and has given the matter formal consideration, examined the evidence, exhibits, charges, answer of Dr. Steagall, and the recommendations of the Board of Censors at this duly called meeting of the Council, and is fuily conversant with the entire matter.

"THEREFORE, BE IT RESOLVED by the Council of the Multnomah County Medical Society:

"1. That the recommendation of the Board of Censors be and the same is" sustained or not sustained, just as this Council desires. Do I hear any motion?

Dr. Adams: I think before that motion is in order, or any action taken in connection with it—

President Brooke: This is debatable.

Dr. Adams: Yes,—this man, this particular accused, brings out a very pregnant thought, in that he does not like to be singled out as one man amongst two or three hundred, and before we take any action on this individual I think the policy of this Council and Board of Censors should be thoroughly determined. I would not be in favor of expelling one member and stopping. I think we must be in a position and in accord to proceed, and proceed at a rather rapid pace, because I think this type of precedent by itself is not good unless we are in a position to carry through, and carry through rather rapidly. We are going to open ourselves to criticism unless this thing is a progressive thing, going on all the time, and the machinery is such a time consuming thing that I think we have to work out some kind of an association proposition here to take more ground in. We are working too slow,
9504 because the very defense that this man makes is— we are very extremely vulnerable on that point, I think.

Dr. Benson: Mr. Chairman, I think the best answer to that suggestion of Dr. Adams would be to see whether we have the courage to act on an individual case, regardless of any such challenge. I think we are entitled to act on each case on its own merits.

Dr. Adams: I feel that way, too, Dr. Benson.

Dr. Boyden: You know, the law doesn't do that way. They don't say because you and I go out and murder a couple of men that they shall take me first and then leave it in abeyance until someone else is convicted.

Dr. Adams: No, but that is a little different than picking out one at a time—murder.

Dr. Boyden: Of course it is.

Dr. Adams: The precedent is pretty strong.

Dr. Benson: Of course it is, but it is the same proposition. Go right down the line, that is all.

Dr. Adams: The precedent has permitted this thing under the Blue Sky Law for so long, we have something to overcome there, too.

Dr. Boyden: Yes, but all this year we have been told to go on.

Dr. Adams: Correct; we must go on, but I think we have to work faster than we have begun.

Dr. Tharaldsen: The fact remains that there
9505 isn't an awful lot of difference between this outfit and—

Dr. Adams: You?

Dr. Tharaldsen: And me; that is the point I am trying to make; except that I am decent and he may be. (Laughter.) The thing that should be decided is whether or not there is any hospital association that would be satisfactory to this organization and, if not, then why single out hospital associations? Why not other contract medicines? Why any place where they don't have a free choice of doctors? Why should you accept one and damn another one? I think we should decide on some policy. If you are going to clean out hospital associations, then let's clean out everybody that is doing any contract medicine—anybody where the patient doesn't have a free choice of doctors? And that will let out a lot of us.

Dr. Adams: Well, what we are planning to do is to carry out the rules laid down by the American Medical Association.

Dr. Tharaldsen: I know, and one of the main things they consider is anything that interferes with the free choice of doctors.

Dr. Rockey: I think you are mistaken in that.

Dr. Tharaldsen: I must have got the wrong copy, then. It is very plain E. ,ish in the on I have on my desk, that little booklet that the American Medical Association sends out. That is one of the points that they make.

Dr. Sears: He is talking about the articles, not this, Dr. Tharaldsen. And it would be a fine thing to know
9506 if there is such a thing as acceptable hospital associations, and if there is not an acceptable hospital association what form of contract medicine in which there is no free choice of doctor is acceptable, and why? Before I would vote to throw this fellow out, while I think the organization has broken all the laws of God and man, I would—why not pick on somebody higher up, that has got a little more kick to them? They don't cut much ice, this outfit, anyway. I know hospital associations that have a hundred members to their one.

Dr. Adams: Not bragging?

Dr. Sears: No; stating a fact.

Dr. Hollenbeck: Mr. President, is a motion in order now?

President Brooke: Yes.

Dr. Hollenbeck: I would like to make a motion that the action of the Board of Censors be sustained.

Dr. Lamb: I second the motion.

President Brooke: All in favor will say "Aye". Contrary. Record the negative votes.

(Drs. Tharaldsen and Sheldon held up their hands.)

President Brooke: Dr. Tharaldsen and Dr. Sheldon. Do you care to give any explanation of your vote, Dr. Sheldon?

Dr. Sheldon: No, except I think I don't approve of singling out that man. I am a member of a hospital association at present.

President Brooke: Well then, the man had a fair trial. He was tried before a jury of his peers.

• • • • •

9508 President Brooke: Dr. Sears has moved rather a lengthy motion, I should say, but its essence—

Dr. Sears: If you can boil down the essence I will make it as my motion.

President Brooke: —is to the effect that Dr. Steagall should be notified that he had not been singled out as a particular culprit by this Council or by the Board of Censors; that it is the purpose of the Council and the Board of Censors to proceed against all offenders alike. Does that express the essence?

Dr. Sears: Wherever charges are filed with the Board of Censors.

President Brooke: Yes, as the charges are filed with the Board of Censors. Is there a second to that motion?

Dr. Payne: I second it.

President Brooke: You have heard the motion and it is seconded. Is there any discussion? (Question called for.) All those in favor will say "Aye". Contrary. (Motion carried, there being no contrary votes.)

The second portion of the resolution as it is given here is, "That it is the conclusion of this Council that the charges against Dr. John R. Steagall have been sustained." Is there any motion in this respect, to this second statement?

Dr. Adams: We have already passed that, haven't we?

Dr. Payne: We have passed it.

President Brooke: No. The first one is "That the recommendation of the Board of Censors be and it is hereby sustained". The second is, "That it is the conclusion of this Council that the charges against Dr. John R. Stea-
9509 gall have been sustained." It is down here this way, and this has been drawn up by an attorney, so perhaps we had better proceed along this line.

Dr. Rockey: I so move you.

President Brooke: It has been moved by Dr. Rockey.

Dr. Lamb: I second the motion.

Dr. Hollenbeck: I second the motion.

President Brooke: It has been moved and seconded "That it is the conclusion of this Council that the charges against Dr. John R. Steagall have been sustained." (Question called for.) All those in favor will say "Aye". Contrary. There are no contrary votes this time.

(Motion carried.)

President Brooke: Third: "That Dr. Steagall be notified of his expulsion by the Secretary of the Society". Is that right?

Dr. Tharaldsen: Where is that, anyway?

Dr. Mount: He has that.

President Brooke: Oh, yes: "That Dr. Steagall shall be expelled from the Multnomah County Medical Society and the Secretary of the Society shall duly notify him of his expulsion." Will someone desire to make that motion?

Dr. Payne: I so move.

President Brooke: Moved by Dr. Payne--

Dr. Mount: I second the motion.

Dr. Hollenbeck: I second the motion.

President Brooke: And seconded by Dr. Hollenbeck. (Question called for.) Are you ready for the question?

(Question called for.) All those in favor will say
9510 "Aye". Contrary "No." Record negative votes by Dr. Tharaldsen and Dr. Sheldon, "That Dr. Steagall be expelled from the Multnomah County Medical Society and the Secretary of the Society shall notify Dr. Steagall of his expulsion", sixteen members of the Council being present, fourteen voting for the resolution and two voting against it.

*CASE OF DR. A. H. JOHNSTON:*

President Brooke: Now we come to Dr. Johnston. The accused has heard the charges, his answer has been read, and he has been given an opportunity to be heard in his own behalf at the meeting two weeks ago tonight. The president may then call for a short recess, and the short recess has been taken. Now the resolution with regard to Dr. Johnston is as follows—

Dr. Adams: There are several members here that were not at the last meeting, and you might ask them whether they have had an opportunity to go through this evidence.

President Brooke: It is my impression that there are some members present at this meeting who were not present at the last meeting. What members are there here present tonight who were not present then? Dr. Sheldon?

Dr. Sheldon: I wasn't here. I was out of town.

Dr. Coffen: I wasn't here.

Dr. Tharaldsen: Dr. Coffen wasn't here.

President Brooke: Anyone else? Now would you like an opportunity to read these charges against Dr. Johnston, or have you read them?

(At this hearing the Council of the Multnomah County Medical Society voted to expel Dr. A. H. Johnston on like charges.)

---

**Plaintiff's Exhibit 2030**

9519 BEFORE THE COUNCIL OF
THE OREGON STATE MEDICAL SOCIETY

In the matter of the appeal from the action of the Council of the Multnomah County Medical Society in expelling from membership Dr. John R. Steagel and Dr. A. H. Johnston. ) TRANSCRIPT.

W. J. Looker, Reporter,
503 Court House,
Portland, Oregon.

---

9520 BEFORE THE COUNCIL OF
THE OREGON STATE MEDICAL SOCIETY

In the matter of the appeal from the action of the Council of the Multnomah County Medical Society in expelling from membership Dr. John R. Steagel and Dr. A. H. Johnston. ) TRANSCRIPT.

The above entitled matter came regularly on for hearing before the Council of the Oregon State Medical Society at the Auditorium of the Medical-Dental Building, Portland, Oregon, on Saturday, November 7, 1936, at the hour of 7:30 o'clock P. M.

The following officers were present:

Dr. Charles E. Sears, First Vice President;
Dr. Charles T. Sweeney, President-elect;
Dr. J. C. Vandevert, Second Vice President;
Dr. W. W. Baum, Third Vice President;
Dr. W. F. Hollenbeck, Treasurer;
Dr. Morris L. Bridgeman, Secretary;
Dr. Blair Holcomb, Councilor;
Dr. Karl H. Martzloff, Councilor;
Dr. Guy L. Boyden, Councilor;
Dr. O. C. Hagmeier, Councilor;
Dr. Charles E. Hunt, Councilor;
Dr. J. C. Hayes, Councilor;
Dr. E. D. Lamb, Councilor;
Dr. Thompson Coberth, Councilor;
Dr. L. S. Kent, Councilor;
Dr. John H. Fitzgibbon, Delegate to A. M. A.

APPEARANCES:

Dr. John R. Steagel and Dr. A. H. Johnston each appeared in his own behalf, in person.

PROCEEDINGS:

Chairman Sears: The meeting is hereby called to order. Members of the Council of the State Medical Society, the matter in hand this evening is the appeal of the cases of Dr. John R. Steagel and Dr. A. H. Johnston, who
9521 have appealed from findings of the Council of the Multnomah County Medical Society. In order to bring the matter to a proper head, we will ask that the record of this meeting be read to you. Dr. Steagall is here and Dr. Johnston is here.

Executive Secretary Clyde C. Foley: We have here copies of the proceedings before the Board of Censors. As a part of the record, I might read for your information the provisions of the By-Laws of the Multnomah County Medical Society which deal with the question of discipline.

(Thereupon, the Executive Secretary read the provisions of Sections 6 and 7 of Chapter I of the By-laws of the Multnomah County Medical Society.)

(Proceedings were then had in the case of Dr. John R. Steagel.)

* * * * *

Chairman Sears: We will proceed with the case of Dr. Johnston. Mr. Foley.

Executive Secretary Foley: I might be able to present the preliminaries in this particular case somewhat more briefly by omitting the excerpts of the by-laws of the procedure which were previously read and also by making the statement that the by-laws,—the record shows that the by-laws were carried out with regard to the preliminary investigation and conciliatory meeting, and due notice with regard to the filing of charges, and all the other details that were dealt with in the other case. So
9522 we can probably proceed with such references as you care to make to the proceedings before the Board of Censors in the case of Dr. Johnston, and proceed from that to a consideration of the proceedings of the Council acting upon the recommendation from the Board of Censors, as you find it in the mimeographed copies now before you.

Dr. Fitzgibbon: Mr. Chairman, would it be in keeping with the proper procedure to cover the points only in which Dr. Johnston's case differs from that of Dr. Steagel? Would that be proper?

Chairman Sears: I think it would be proper in case Dr. Johnston gives his consent. Dr. Johnston, there are a number of matters, as you probably heard, involved in the proceedings, concerning the operations of the Prudential Hospital Association.

Dr. Johnston: Yes.

Chairman Sears: Would it be agreeable to forego the reading of those and go rather directly to your involvement?

Dr. Johnston: Absolutely, doctor. The shorter, the better.

Executive Secretary Foley: What follows are pertinent excerpts relating to a consideration of the case of Dr. Johnston at a meeting held on September 1st, 1936, at 7:30 P. M., at which time the following members of the Multnomah County Council were present:

(Executive Secretary Foley reads from transcript.)

Executive Secretary Foley: We now pass to the
9523 pertinent matter relating to the case of Dr. Johnston.

(Executive Secretary Foley reads from transcript.)

Executive Secretary Foley: That completes all the pertinent parts of the meeting of the Council considering the case of Dr. Johnston under date of September 1st, 1936. The Council met under date of September 16th, 1936, at 7:30 o'clock, P. M., with the following Council members present:

(Executive Secretary Foley reads from transcript.)

Executive Secretary Foley: In the following, I am taking up the case of Dr. Johnston as deferred in the meeting of September 1st.

(Executive Secretary Foley reads from transcript.)

Executive Secretary Foley: Subsequent to this action by the Council of the Multnomah County Medical Society, the notice of their action was transmitted to the Secretary of the Oregon State Medical Society in the following communication.

(The Executive Secretary read a communication addressed to Dr. M. L. Bridgeman, Secretary of the Oregon State Medical Society stating the action taken by the Council of the Multnomah County Medical Society in regard to Dr. Johnston.)

Executive Secretary Foley: Dr. Johnston, under date of October 14th was apprised of this action and a notice of this hearing, as follows:

9524 (Executive Secretary Foley read a communication under date of October 14, 1936, from Dr. M. L. Bridgeman, Secretary of the Council of the Oregon State Medical Society to Dr. A. H. Johnston.)

Executive Secretary Foley: That concludes the record.

Chairman Sears: Dr. Johnston, will you tell us the points on which you base your appeal, and add thereto any further comments that you wish?

Dr. Johnston: Well, I am here to protest the action of the Multnomah County Medical Society in expelling me, because I think it is a very unjust action, for the following reasons: First, the first charge that was on the paper was that I was associated with the Prudential Hospital Association. If you mean by "association" that I did work for them, maybe that's true. The second charge you made was that the Prudential Hospital Association and myself were engaged in the contract practice of medicine. Well,

I cannot see where I am engaged in any contract practice of medicine or any affiliation with the Prudential association. In other words, I cannot see where you can connect me with the Prudential at all. I fail to see it, gentlemen. I fail to see it. The charge that I was associated and engaged in the contract practice of medicine and indirectly soliciting and advertising,—I have nothing to do with that at all, any more than a lot of you gentlemen who do referred work for other hospital associations and the Multnomah Hospital Association. I have done work for
9525 the Multnomah, and so have you gentlemen here in this room. I came here just a year ago. It seems to me I am the youngest member of this society that has been expelled for that reason. There are men who have been doing that work for twenty years here in this town, and are still doing it. It seems to me I am principally the goat in this case. I can see where you have charges against the hospital association. I am not sticking up for any hospital association at all, but I do object to getting linked with the hospital association and saying I am engaged in the contract practice of medicine and that I am soliciting business or doing advertising, because I am not. I can't see where I am. I came here a year ago. The Prudential Hospital Association asked me if I would do some work for them. Well, at the same time, I was doing work for the Multnomah; so were others of you gentlemen here in this room today. They offered to pay me for it; why wouldn't I take it? I was here to get a practice,—work up a practice. I was a complete stranger here in town; had just been here a short time; and that is the way it is today. I have been here just over a year. It seems to me that you gentlemen, after you get out of the Multnomah Hospital Association, go right away and jump onto the youngest member of this society and kick him out because he did some referred work for a hospital association. I can't see it, gentlemen. I think it is a pretty raw deal, and I am willing to answer any questions you gentlemen have
9526 to ask me. It is true I have done referred work for them. It is true, just as that paper says,—I have got my own office. My name is on the door. My name is on the other door, but there is no Prudential Hospital Association name connected with my name at all. Of course it is true I don't believe in advertising or soliciting or contacting work, but kicking me out of the medical society wont correct the hospital associations. I am just try-

ing to make a living. The last few years I have had financial reverses. Maybe you fellows didn't have any, but I doubt if some of you didn't too, and I planned to establish a practice here. I took some of the referred work, gentlemen, I am not denying it. I am here to defend it. I am paid for it, but I do not countenance any of their acts. I have nothing to do with the hospital association. I don't own any stock. I am not paid any salary. I have no interest whatsoever in the hospital association. In fact, I wish there weren't any, as far as I am concerned. It is a fact I have done some referred work,—done some work they sent me and they paid me for, and just about like other doctors here and about two thousand doctors in the State of Oregon are doing work for hospital associations, and getting paid for it too. That's all I have to say, gentlemen. If there are any questions I would be glad to answer them.

Chairman Sears: Have the members any questions?

Dr. Martzloff: Dr. Johnston, in taking the referred work of the Prudential Hospital Association, do you take
9527 this work in the nature of a specialist or consultant?

Dr. Johnston: Everything, just general practice. Gentlemen, I am here to tell you that the work I do, the calls that I make, the outside calls and the calls I make in my office, I give these people the same care I do my private patients.

Dr. Lamb: Just two questions. The first is: You are still doing their referred work?

Dr. Johnston: Yes, sir.

Dr. Lamb: The second is: Is the door of the reception room—which is admittedly, although not published by being placed on the door—admittedly the reception room of the Prudential Hospital Association?

Dr. Johnston: My waiting room is not the reception room of the Prudential. It is for my patients only.

Dr. Lamb: Is your name on their reception room, or the reception room which is known as the Prudential Association?

Dr. Johnston: My name is on the other reception room door, but it is also on my own door.

Dr. Lamb: It is put on their door with your consent?

Dr. Johnston: No, they put it on there in the first place. They never asked me about it at all.

Dr. Lamb: You mean to say then,—

Dr. Johnston: I didn't tell them to take it off.

Dr. Lamb: You mean to say a man has a right to put

your name on his reception room if he wants to, without your consent?

9528 Dr. Johnston: Well, legally you are right.

Dr. Lamb: Wouldn't that be an admission on your part of an association with them?

Dr. Johnston: It might mean it. It might not.

Dr. Lamb: I wouldn't think it might not.

Dr. Johnston: Well, there are some names on the door that the doctors are not even there. There are names on the door that the doctors are not even up in that building, and not even doing any work for them. What do you think about that?

Dr. Lamb: I would say it is false advertising.

Dr. Johnston: Well, maybe so.

Dr. Holcomb: Two questions, Dr. Johnston. Dr. Johnston, do you keep a record of the calls and examinations you make for the Prudential Association?

Dr. Johnston: Oh yes.

Dr. Holcomb: Do you have a record of those?

Dr. Johnston: I do.

Dr. Holcomb: Which you can submit as evidence of the fact you are not paid a salary, but are paid only for those calls you make?

Dr. Johnston: Yes, I am paid for every call I make.

Dr. Holcomb: Do you have,—you have proof of that?

Dr. Johnston: Beg pardon?

Dr. Holcomb: Proof? You can submit the records?

Dr. Johnston: Well, the checks that they pay me every month are different. You mean for the bills, or for which?

9529 Dr. Holcomb: You have a record in your office of the charges you make for the patients to the Prudential Association?

Dr. Johnston: Absolutely; I can show them to anybody that comes to my office.

Dr. Holcomb: The second question is: You say about one-fifth of your work is with the association?

Dr. Johnston: Approximately. One-fifth, or one-fourth, —something like that.

Dr. Holcomb: Was it your intention to resign from the association, doctor?

Dr. Johnston: Beg pardon?

Dr. Holcomb: Was it your intention to resign from your particular association there?

Dr. Johnston: Later, yes. I don't intend to stay with the hospital associations.

Dr. Holcomb: Could you resign now?

Dr. Johnston: It is impossible for me to get out in a short time. It is impossible for me to sever my connections with any hospital association until I can see my way clear.

Dr. Hagmeier: I would like to ask Dr. Johnston a question. These cases that are referred to you, Dr. Johnston, are they referred to you by the manager of the association, or does the nurse sitting right in this common waiting room direct the patients to come to you?

Dr. Johnston: The nurse brings them into my office,—my waiting room.

Dr. Hagmeier: In other words then, the refer-
9530 ring is not done by the head of the company; it is in the hands of a super-ordinary, is that true?

Dr. Johnston: Well, it may be. It may be from both,—anyone.

Dr. Coberth: Dr. Johnston, you know I have known you a long time.

Dr. Johnston: Yes.

Dr. Coberth. Probably longer than any man in the room.

Dr. Fitzgibbon: No, I have known him longer.

Dr. Coberth: We wont argue about that. I will ask you a question. Do you pay your own office rent?

Dr. Johnston: No. I don't.

Dr. Coberth: Who pays it?

Dr. Johnston: They pay it.

Dr. Coberth: All right.

Dr. Johnston: Yes, they pay it for the work that I do in the office.

Chairman Sears: Dr. Johnston, your answer to one of our questions, whether you intended to sever your work with the Prudential, you answered and stated that,—you said, "In the near future, and as soon as practicable," and this is written on your own letterhead giving the address in the Morgan Building, and you gave as your telephone number, "Beacon 7227," which is the only telephone number which you give on your letterhead. Isn't that the same telephone number as the Prudential Hospital Association?

Dr. Johnston: That is the first one. When I first went there, the 'phone was in that office. It took some
9531 time to get my own 'phone put in, and I have consequently used their number. I have an extension from their office.

Dr. Lamb: You haven't changed it yet?

Dr. Johnston: I have my own 'phone now.

Dr. Lamb: What?

Dr. Johnston: I have my own phone now, yes.

Chairman Sears: What was the date, do you remember, of our first communication with you,—the approximate date?

Dr. Johnston: Of which?

Chairman Sears: Of our first communication with you.

Dr. Johnston: No I don't doctor.

Chairman Sears: Have you that date, Mr. Foley?

Executive Secretary Foley: Yes, I think so.

Dr. Lamb: March the 14th.

Executive Secretary Foley: Dr. Johnston first discussed with the Board of Censors the matter of this contract practice March 11th, 1936.

Chairman Sears: He received his notification some ten days before that, I know.

Executive Secretary Foley: A week or ten days, yes.

Chairman Sears: Somewhere about the end of February.

Dr. Martzloff: Dr. Johnston, do you have an office nurse in your office?

Dr. Johnston: No, I have no office nurse.

Dr. Martzloff: The girl that acts as your waiting
9532 room receptionist is employed by the Prudential Hospital Association, is she?

Dr. Johnston: That's right.

Dr. Martzloff: And does this receptionist take it upon herself to send patients to you if they come to see Dr. Steagel and he isn't there, you will see them for him; is that it?

Dr. Johnston: It is possible she does. She brings them in.

Dr. Martzloff: She doesn't have to telephone Dr. Steagel before she brings them to you, to get his permission to have you see them?

Dr. Johnston: I don't know that.

Dr. Hunt: Doctor, where did you practice before coming here?

Dr. Johnston: Oregon City.

Dr. Hunt: For how long?

Dr. Johnston: Three years.

Dr. Hunt: Four?

Dr. Johnston: Three.

Dr. Hunt: Fourteen?

Dr. Johnston: Three.

Dr. Hunt: Where before that?

Dr. Johnston: Heppner.

Dr. Hunt: How long there?

Dr. Johnston: I was there about ten years. Dr. Coberth knew me at Arlington when I was there.

Dr. Fitzgibbon: In the letter of April 29th, in which you stated your intention to sever your connection with the Prudential, you didn't give any particular date as to when you intended to do that.

9533 Dr. Johnston: I can't. It is indefinite.

Dr. Fitzgibbon: It is now indefinite too?

Dr. Johnston: It is indefinite, yes.

Dr. Martzloff: May I ask another question Dr. Johnston? Dr. Johnston, you, I think, stated earlier in the evening that you felt the accusation that stipulated your association with the Prudential Hospital Association was an unfair accusation in view of the fact that you were not connected in any way,—do you still feel that accusation is unfair?

Dr. Johnston: I didn't get that last.

Dr. Martzloff: Do you still feel that the assertion that has been made of the charges against you that you are associated with the Prudential Hospital Association,—do you feel that assertion is unfair?

Dr. Johnston: I said the assertion,—the contract practice charge, in which you say the association and myself are in the contract practice, and you indirectly say I am in advertising. How can you say I am in that?

Dr. Martzloff: You just said the hospital association paid your rent.

Dr. Johnston: It doesn't make any difference whether they pay it or I pay it.

Dr. Martzloff: And the office girl in your common room is employed by the association.

Dr. Johnston: She doesn't do any work for me.

Dr. Martzloff: She is your receptionist, is she

9534 not?

Dr. Johnston: She brings patients in there.

Dr. Martzloff: Does she answer telephone calls for you?

Dr. Johnston: No. No, I have a private telephone. I can't see where you can say I am engaged in the contract practice, or engaged in advertising, even though I do work for the hospital association. I can't see it. As soon as I possibly can, I told the Council of the Multnomah Society I was going to get out of the association work, but I can't

do it at the present time. Gentlemen, if you are going to do it to me, you are going to do it to a few hundred more in the town, and all over the state. I am telling you right now you can't stop now, if you do that to me. You will have to take everybody that does hospital association work. You will have to go to Oregon City. All the doctors in Oregon City have to do it to make a living, because the mills are all contracted now. How can you go down to Oregon City and kick those men out of the medical society? I can't see it, gentlemen. I can't see it. You interfere with a man making his living if you do, and a man has got a right to live. Those men in Oregon City,—eighty per cent of their work is contract work, and you gentlemen know it. If you can get rid of the hospital associations, do it, but it can't be done this way.

Dr. Hayes: Can you give us a definition of how we can get rid of the hospital associations?

Dr. Johnston: That's not my problem. You have
9535 started something now, and it's up to you. Any other questions, Mr. Chairman?

Chairman Sears: Any further questions? If not, we will excuse you, doctor.

Dr. Johnston: All right, thank you.

Chairman Sears: Many thanks. Anyone wish to make a motion that we go into executive session? It is moved and seconded. All in favor respond with the usual affirmative aye. Contrary, no. It is so carried, and we will proceed.

Dr. Fitzgibbon: I move that Dr. O'Dell be permitted to remain in the room.

Chairman Sears: I don't think it will be necessary to move I will so rule, that Dr. O'Dell be permitted to remain in the room.

• • • • • • • • • • •

Chairman Sears: Is there a motion now concerning Dr. Johnston?

Dr. Blair Holcomb: I move that we proceed to a consideration of the charges against Dr. Johnston.

Dr. Bridgeman: I second the motion.

Chairman Sears: It is moved and seconded that we now proceed to a consideration of the charges against Dr. Johnston. All in favor respond by the usual affirmative aye. Contrary, no. It is so carried, and we will proceed.

• • • • • • • • • • •

Dr. Blair Holcomb: I move that the action of the
9536 Council of the Multnomah County Medical Society in expelling Dr. Johnston be sustained by this Council of the Oregon State Medical Society.

Dr. Chas. T. Sweeney: I second the motion.

Chairman Sears: Any discussion? All in favor of this motion respond with the usual affirmative aye. Contrary, no. It is carried unanimously and so spread upon the minutes.

Dr. Hagmeier: I move we adjourn.

(The motion was seconded.)

Chairman Sears: It is moved and seconded that we adjourn. All in favor respond with the usual affirmative aye. The motion is carried. The meeting is declared adjourned.

- - - - - 0 - - - - -

(The meeting was adjourned at the hour of 10:45 o'clock P. M., on the 7th day of November, 1936.)

- - - - - 0 - - - - -
